## EXPERIENCE

# A VALUABLE LESSON FROM A STRANGE MAN

Rai Saurabh  
class 10<sup>th</sup>

This is a Story that happened 4 years ago but it has always stayed with me since then.

On the way back from every evening, more after than not there would be a homeless man standing at the exit of freeway. He looked to be in his late 40's but was probably a lot younger. He had shoulder length straight black hair a short beard, and he was of average stature.

His eyes were stuck me the most about him, they were brown and they had a sparkle. Like an inside like that was beginning out of his eyes. His eyes, I thought rebred scented the man is general people say they can tell a lot from a person's eyes. It was certainly true in his case. He always waved it every car, he was always happy and smiling and sometimes almost dancing.

Everyday day after school I would remember together any spare change, and put it aside to give to him if I show him. A feeling of joy would come over me every time I show him is I came of the ramp. He had that effect.

I'd quickly roll down my window and give him the coins. Occasionally the red light would be on for a minute and we would ask each other about for a day. His answer would always be same I am blessed.

I knew what is answer was going to be every time, yet I would still ask. If I am asked me that even he is situation of being homeless he was so positive, and his answer would remind me of how blessed I was a student and child who has family.

That one day my parents give me fees for school picnic but unfortunately I lost my money it was more than 2000 rupees. I was very sad a feeling of worry and rest I was thinking what will I tell my parents and I have to submit the fees in 2 hours.

Needless to say that on my way home that day I was very sad and upset. I wasn't feeling the joy as I got of the ramp where the homeless man would be yet there he was as always as I turned the ramp. He set his eyes on me, while still smiling and waving at others.

I'd hoped to catch the green light I missed it. While I was waiting for the red light to turn, he come near my bicycle. He had big smile and asked me about the day I told him about my whole day and he said "today I will give you 3000 rupees "I was blown away I burst into tears I wanted to her him but I had to go. After that next day I wanted to give money back but he said "I don't want money back it was my pleasure".

You see that day he gave me more than 3000 he thought me a valuable lesson. No matter material thing are taken from you, no one can take away you choice to be joy able.

Every time I am faced with challenges, I think of the homeless men's valuable lesson and remember that I am blessed.

# KINDNESS MAKES KIND !

Rupareliya Misty  
class 5<sup>th</sup>

This world is wonderful, many occasions often occur in this world. That is the kind of change that happens in people, such as economic, religious, generic, physical etc. This is how I become kind to a bad man. Talk about rubbing salt in my wounds.

One day some robbers came to a village. These robbers lived in the forest. They knew there was a doctor in the village. Doctor had a lot of wealth, so all the robbers attacked the doctor's house, plundered all wealth of him. One day the robber's son fell ill, the medicine of any veda inside the forest did not work. All the Vedas advised robber to go to the doctor of the next village. The robber was very hesitant to go to the doctor, because he killed the doctor's family and robbed him of everything. Robber started crying loudly and told God to heal his son. What should I do now? Seeing all this, the robber's wife told the robber to take his son and apologize, may be the doctor would treat him. He goes to the doctor with his son. The robber starts harassing the doctor and begs him to treat his son. The doctor treats his son without any complaints. In two days his son is completely healed. The robbers fall at the doctor's feet and say, "I treated you so badly, but you treated my son." The robber apologized for the mistake he had made. The robber's heart changed drastically. The robber's come to live in the village and began to serve the poor. The robber became a kind man and within a few days the villagers began to worship him. There for a bad person turns into a kind person.

One day, a poor boy named Howard Kelly was selling goods door to door to pay his way through school. He found he had only one dime left which was barely enough to buy a piece of bread.

He was very hungry and decided to ask for a meal at the next house. However, he lost his nerve when a young woman opened the door.

Instead of a meal, he asked for a glass of water. She thought he looked hungry, so she brought him a large glass of milk. He drank it slowly, then asked, “How much do I owe you?”

“You don't owe me anything,” she replied. ”Mother has taught us never to accept pay for kindness.”

He was surprised with her reply for he was never met anyone who would not want his money even for the smallest favor. He was deeply grateful and said, “I thank you from the bottom of my heart.”

Growing up in a poor family, Howard has to go through adversities and he almost wanted to give up and quit but this lady's kindness has shed him a new light. As he left that house, he not only felt stronger physically, but he was filled with hope once again. Years later that kind young woman became ill and

she was referred to a famous doctor in the city. Against all odds, it was the same lady that has provided him hope.

When he heard the name of the town she came from, a strange light filled his eyes. Immediately he arose and went to the patient's room to meet her.

Dressed in his doctor's gown he went in to see her. He recognized her at once.

He went back to the consultation room determined to do his best to save her life. From that day, He gave special attention to her case. After a long struggle, the lady was finally cured.

When it was time for the medical bill, Dr. Kelly requested the business office to pass the final bill was sent to her room. She feared to open it because she was certain that it would take the rest of her life to pay for it all.

After much consideration, she looked at the bill, and something caught her attention on the side of the bill. She saw these words... Paid in full with one glass of milk- Dr. Howard Kelly.

He has never forgotten the lady's kindness shown to him through the glass of milk. It may not mean much to her and she may have even forgotten all about it, but to him, it's not a coincidence to chance upon the same lady after all these years!

He was immensely thankful to be able return her kindness by wring her illness.

# GENEROSITY AND COMPASSION NEVER GOES IN VAIN

**Chavda Suhani**  
Class 10<sup>th</sup>

Shravan was born in a rich family. Even as a child, he would share his riches with the needy. He got married and had sons. With no thought for the future, Shravan and his wife continued to be generous. No one went away from their home empty-handed. Ultimately, Shravan ran out of money, His family had to go without food for months.

One day, Shravan managed to get some rice, ghee, wheat and sugar. The Family thanked God for giving them food and sat down to eat.

Just then a holy man knocked at their door. Shravan received the guest by bowing to him and served food to him. The holy man went away satisfied. Half of the food was still left for Shravan and his family.

As they sat down to eat, a hungry farmer came looking for food. Shravan offered him a seat, made him comfortable and served him food. The farmer enjoyed his meal.

There was still food left. Shravan's family decided to share whatever had remained. As they sat down to eat, a traveler appeared at the door. He was accompanied by four dogs. He begged for food for himself and his four dogs.

Shravan offered whatever was left to the guest. He was happy to see the hungry dogs cleaning up the vessels.

There was no food left by the time the man took his leave.

Shravan smiled, God is kind, and we have some water left”. Just then he heard someone cry, “Oh sir. I'm dying of thirst, will a kind soul give me some water?”

Shravan ran out to the street and saw a poor man overcome with thirst. He offered the water to the thirsty man. The man gulped water down.

As Shravan looked at him, the poor man revealed himself as Brahma, the Lord of creation.

“Shravan, the gods came down to earth to test you. We are pleased with your spirit of sacrifice. We will be happy, to grant any boon you ask for.”

Shravan bowed to Lord Brahma and said softly, “May I always share whatever I have with my fellow”.

Lord Brahma blessed Shravan and his family never went hungry again and continued to help those in need.

# A SPECIAL BOND WITH MY PET DOG 'BRUNO'

Patel Monisha  
Class 2<sup>nd</sup>

I have a pet dog named Bruno. I and my father have built a dog house for it. I and my mother daily buy dog food and give to Bruno. After eating we both go for a walk. I play with it when I am free. Whenever I go outside he waits near the gate for me to come. As soon as it see me he start jumping and hugs me and goes around and round. I also feel bore and sad without it. We both have great time together.

In return if any stranger thief comes near our house or street it watches them or smell them. By its barking we get to know that something is wrong and we come outside. So,

we are very safe at night because of Bruno. Bruno takes care of our house when we are not at house. When we go out I miss Bruno a lot.

In reality those dogs are innocent and we treats them as demons. Why can't we and dog be united? In this generation too, some people and kids are very kind who take some time to think about these animals.

Those animals are lucky but they are few what about the rest of animals. They just wonder in the streets, roads by working directly, starving in hunger and in search of place to stay. These animals life well be easier if we treat them as our pet and be friendly to them. We should provide them with food and shelter to live.

Be kind to them as I am with my pet dog Bruno. You also try to be kind to them and make their life easier.

Before concluding I would like to say that be kind to them and be friendly. Give them a good respectable loving care. We should not treat them as they are dogs. We should treat them as a friend as a human beings.

# PRIME MINISTER FOR A DAY

Undhad Het  
Class 2<sup>nd</sup>

If I become a Prime minister for one day. I would make so many changes in different sector of our Country. It's just like corruption in all sectors like education, farming, health-care, corruption in different sectors.

In our country education is very poor in many parts of the different states, especially in village area. The people of that area have no money to get enough education in cities also, there is no importance of education because of corruption.

So, if I become Prime minister. I give free education. So every children get education and make their carrier in different section, so our country becomes educated like other countries US, Canada, France, UK etc.

In our country farmers also don't get facilities in their farm likes electricity, water in some rural areas and do not get enough fertilizers.

If I become Prime minister, for me farmers are very important and helpful persons. If we encourage every farmers in various ways to help, we get decrees of poverty in our country and every person get food and every farmers become

# BAG OF GOLD COINS

**Rajveer Chaudhary**  
Class 9<sup>th</sup>

Rohan was a greedy and a selfish man. He always described to have a lots and lots of wealth and never hesitated to cheat other He was so selfish that he would like to own everything for himself.

The selfish man used to calculate each and every small aspect. He paid a very little amount of wages to his servant. Wherever he went, calculated a lot to save money by deceiving other. He also told a lot of lies to protect his wealth. Simply, Rohan was the antonym for the word honesty.

However he was taught a nice lesson by his own act.

One day, he missed a small which contained 50 gold coins. He sent his workers in search of the bag of gold coin and requested them to inform if they found it. Rohan was so sad that he lost so many gold coins.

After a couple of days, a ten year old girl who was located near Rohan house told her father that she had found small bag and it had 50 gold coin her father worked in Rohan's land. He told his daughter that it was his chief's money and he had lost it before two days and added that he would return the bag to his master. They weren't very rich and the father could retain the gold coin with themselves and hide the fact of

finding the bag. He was honest that he should return the valuable coin to his master, who really owned it.

He gave it back to his master Rohan and asked him to check whether the bag had 50 Gold coins Rohan who was literally happy to get to the coins, decided to play tricks. He shouted at his worker, there were 75 gold coins in this bag and you gave only 50. Where are the other coins you have stolen them!

The worker was shocked to hear this and he pleaded to his master that he gave whatever his daughter has found selfish and greedy. Rohan did not accept it and they decided to take the issue to court to get the right judgment

The judge heard both the sides. He examined the daughter and the worker about the numbers of coin they had found the bags and they assured it was only 50!

He cross-examined Rohan and Rohan replied yes lord, I had 75 gold coins in my bag and now they gave me only 50! They have stolen my 25 coins. Judge asked, are you sure you had 75 coins and Rohan nodded his head.

Then the judge made his judgment, since Rohan lost a bag of 75 gold coins, the bag found by the girl which had only 50 coins doesn't belong to Rohan and it was lost by somebody else. In additions, if anyone found of 75 gold coins, I would declare it belongs to Rohan. Also, there were no claims against the loss of 50 coins and I other the girl and his father to take those 50 coins as a token of appreciation for their honesty.

**MORAL:** Honesty is reward and greediness is punished.

# TRUTHFULNESS BRINGS ITS OWN REWARD

AS he was honest he never asked for more money from his customers. He work hard all day and be satisfied with whatever he earned.

One day, a rich businessman came for a visit of a village. He and his family had never came to village. So they planned for a short stay in the village. As he was a rich man when he entered the village in the most expensive cart and

many more carts followed him. Some were full of fruits and some with clothes. The villager's eyes were only on the entire procession passed right in front of them.

One following day, the business man called James. As James walked to go to the Businessman's house. On his way, he met his friend, Tom. Tom Said,

Tom: Hey, James! Where are you going?

James: Hello, Tom. How are you? I am going to the Businessman's house.

Tom: Businessman's house? Why there?

James: He has some work for me.

Tom: Is it? Listen, he is a very wealthy man. This is a good opportunity.

James: See, you must charge him more than what you usually charge others. It's only fair.

James: No!

Tom: But I am sure he won't mind paying you!

James: No, Tom, It's not fair. I can't charge him more than what I charge others! That's cheating!

If he likes my work then he can decide to pay me more. But I have to be honest and tell him the right price of my work.

Tom: Uh! I am your friend, James. And I respect your honesty but honesty alone can't feed you. You work so hard but people in this village will never enough money to pay you.

Take my advice, friend.

You should ask for at least five pieces of gold for the work. He has for you.

James: Five pieces of gold?!!!! No!! I have never charged five pieces of gold to anyone! I understand your concern my friend. And thank you for caring about me. But I have been doing just fine with whatever I earn.

Tom: well... I did my part. It's upon you now.

James waved goodbye to his friend and walked ahead. He understood that Tom only wanted the best for him but that's not right thing to do.

As James entered the gate of the Businessman's house. He was enchanted. It was nothing less than a place!

Businessman: Oh! Hello! You must be James –The painter!

James: Yes, I am Sir. You had some work for me?

Businessman: Oh, yes! The caretaker for my boat has gone out. He will be back onlytomorrow afternoon. But I need to get the boat painted. Will you able to paint it by tonight?

James: Yes, I can. Where is the boat? I will get start right now.

Businessman: HAHA! Four pieces of copper? That's it? Well, I would never pay you a less than you charge me. You can have your four pieces of copper coins right now only. The boat is never the river. Call me when it's done.

James: Okay!

Vincent took the money. He went to the market and bought paint. And without wasting time he walked to the river. As he was begin, he saw a big hole in the center of a boat.

He said, “Oh! This can be dangerous! I should fill this up first “Then he filled up the hole and began to paint. He worked for many hours without food. Finally, the boat was painted. He left and called Businessman to see the boat.

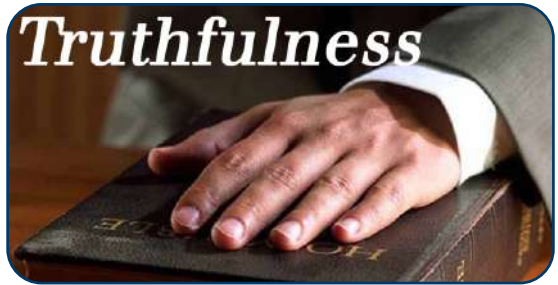

Businessman: Oh! This is wonderful! You work well. James here, Take these four piece of silver you deserve it? If I have anything else to paint, I will call you at once!

James: You are very good man, Sir I shall leave now.

The next morning, the Businessman's family went for a ride in the boat. The Businessman waved goodbye to them and went back home. As he reached, he saw the boat's caretaker coming to him.

Caretaker: Sir! You are here a week early!

Businessman: Oh! Yes. My family insisted to come see the

village. They just go on boat to ride.

Caretaker: What! No!! We have to call them back! The boat is having big hole in Centre.

Businessman: What! No!! My kids!

Businessman ran to river bank and searched for them. But there was no response. The businessman was cried there. Suddenly, the boat came back and his wife asked “What happen dear, why you are crying?” Businessman said “You all are safe! There was big hole in the boat!” But there was no hole in the boat. They were surprised to see that. The businessman thought for a while, he understood what had happened and immediately sent to call James painter.

James came to the Businessman's house And the businessman give him a reward, A hundred pieces of gold. James was shocked “A hundred pieces of gold”. He asked, “Reward for what?” Businessman replied, Reward for your honestly and hard work. You saved my family's life. You had filled that hole in the boat which was not your work and didn't charge it from me. So, this is a gift from me, take it. He was too happy.

Till yesterday he was a painter who could earn just enough to survive.

# BIRD FOR A DAY

**Vaghela Aaradhyaba**  
**Class 3<sup>rd</sup>**

One day when I was sleeping a fairy came in my dream. She said that she will grant me one wish. I always had a dream to fly high above the sky. I always had admired different kinds of beautiful birds who fly free above us. I asked fairy to turn me it to a bird for a day.

When I woke up in the morning, I was actually a bird. I was able to fly above my house and above the places. I was able to fly above the buildings, mountains and hills look down on people houses and all through the city. My school looked pretty from high above. I was enjoying my first flight.

I was getting tired at flying in the sky for a long time. The intense rays of the sun were warming my wings. I started wandering around looking for food and water. I never thought birds would have so much trouble with water and food. I stopped at a tall building and started looking for water all around luckily, I saw an old man pouring water and grains for the birds into his backyard, immediately I started flying towards it. I ate food and drank water to satisfy my hunger. I heartily thanked the old man.

In the evening I returned to my home. When I woke up in the morning I was turned back to human. That morning I decided to put water and food for the birds in my backyard every day. It is become my duty to take care of these helpless birds and other animals from the day onwards.

# HAPPINESS IN ONE-SELF...

Class 3<sup>rd</sup>

There was once a crow who lived in the forest and was absolutely satisfied with its life. The crow never compared to any other animal. But one day he saw a swan. This swan is so white he thought, I am so black. This swan must be like happiest bird in the world.

The crow told the swan how he felt “actually”, the swan replied “I was feeling that I was the happiest and most beautiful bird around until I saw a parrot, which has two colours. Now I think the parrot is the happiest and luckiest bird in the world.” After hearing that the crow decided to search for the parrot. When he found the parrot he told what has happened to him so far and what he was thinking, the crow's surprise the parrot, parrot replied, “I lived very happy life until I saw peacock. I have only two colours, but the peacock has many colours.”

The crow decided to see that for himself so he visited the peacock in zoo. Once he saw that hundreds of people had gathered to see

the peacock. After the people left, the crow approached the peacock the crow said “dear peacock, you are so beautiful. Every day thousands of people come to see you and your beautiful feathers. Compared to you I am not so lucky and I could never be as happy as you are unlike you when people see me, they immediately shoo me away and even throw rocks at me. I think you are the happiest bird on the planet.”

The peacock replied with sadness in his eyes, “I always thought that I was the most beautiful and happy bird on the planet. But because of my beauty I am entrapped in the zoo, from what I have seen and experienced in my life I have realized that you are the luckiest bird in the world, when compared to you I am imprisoned and told where I can go and when I have to do something. You are one of the few birds that are not kept in a cage and are free to spread your wings and fly where your wish to.

Crow, now understood that, it is very important to see the happiness in oneself.

# TRUTHFULNESS BRINGS ITS OWN REWARD

More Shubham  
Class 9<sup>th</sup>

Once upon a time there was a city named Rajkot. Where a business man lived named Jethalal Champaklal Gada. And who was owner of the biggest mall “Gada Mart” in his city. He has 20 outlets in his city. He has twenty outlets in his man named Mr. Hiralal Jayesh Soni, who was also a businessman and is owner of Ramesh supermarket. Harilal was having 10 outlets in his city. Both businesses were going very good and both were good friends too. Now both were going very good and both were good friends too. Now both were going to tie up their businesses for good services and to earn good profit to each of them. But one day Hiralal thought that my company is smaller than Jethalal and if he will give 25% shares instead of 50% this thought was roaming in his mind from several days. So he finally decided to grow his company he went to banks, for offers and deals. Finally 5 banks were interested in his schemes but this offers and deals of banks not make much desired profit for him. Then he decided to give gifts to his customer but it also didn't work. Then he finally decided to meet up with Tour Company and give discount to his customer but this also didn't work. He doesn't want to give discount to his customer because he don't want to lose his profit. Then he finally came an Idea that he will buy products on bulk. So he will get huge discount as comparing to market on product. So, he went to AMC Company who was the largest producer of all daily needs products such as dairy products, beauty products, food grains products, snacks and etc. So he decided to do meeting with the MD (managing director) of the company

who was Anil Gupta. They met up for deal but the budget of the deal was too expensive for him and his company. It was 10 x of his budget. Then he was very disappointed and on other side the jethalal was doing more and more business and making more and more profit day by day. One day they met in a party of their friend. They talk about their businesses and decided that we both are going to tie up our companies in next year. Jethalal gave him an idea to give discount to his customer and on profit but he denied to him. On next day Hiralal thought and Idea which was to buy cheap quality products at low cost and sell it as a brand a very high cost. He decided to follow it he had announced and media and market and had also done advertisement in public too that Ramesh supermarket is now producing his products for people's daily life needs at very low cost and it will be happen in one month. After it this news was shocking in the market everywhere where everyone is talking about his company. Then Hiralal thought that if he launch bad products in market at first his company's reputation will be down and company can be closed. So he decided to launch very good products at low rate for 3 months and then I will play my game with a condition. He follows his plan very well and then he launch his product in his mall with grand opening and celebration. His products had fired in the market he and his company had created that much of wealth to open 25 outlets within minutes in 2 because his company was doing highest profit day by day is companies profit was thrice within two months and his companies share was double in 2 months in stock market. He is companies share was on 600₹ before 2 months or you can say before longing his own products but after launching it his companies share had become double by trading on 1200₹ in just 2 months his company's market value was double by his products. Jethalal's company had faced many losses day by day but he didn't lose his hope of his business. He decided to grow his business and be loyal but on other side hiralal's life was became luxurious and he started to

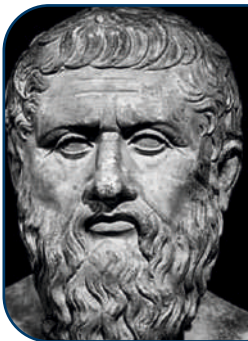

play his game he forgot about that this luxurious life of his and his company was having for his loyalty not for his this honesty. He started to make Products with chemical and other poisonous things for looking his product more attractive towards his customer. Then he launched his products second time with some good products mixed up with bad products. He also announced a condition which was, "if any product is defective you will get refund of product within 15 to 20 days because first they will check the product in their labs for refund" everyone was agree with his condition. Then after what is stock was getting sold day by day as comparing to last stock. Then after launching the second stock he made more profit then last time he want to make new stock within 15 days but after 25 days his company was getting complaints by customer but it was only 5% approx. So anyone did not take it serious because someone of them was saying they are also humans mistake can be done by them. Someone was feeling guilty themselves that they had not kept the products neatly. So it not affected two he is company first time bot second time the complaints were 25% approx., this made his company in problem but he had done charged the report from labs and cleared customer to refund that time also customer did not say anything and said him that if it well done next time we will finish your company. Now he was in there but his P.A ( personal assistant) said him don't worry sir the public wheel remember it for 15 to 20 days then they will also forgot we will launch some good stock only which will remain for 10 to 20 days only he was agree with his P.A and gave in a luxurious car as gift. Then as per plan his launch good products which remain last for 15 days and after these launch his company was stable and he launched mixed stock again which is good and bad products mixed. But now everybody started doing lab test for another lab and doing directly complain against him in customer court and then what the customer court has taken direct and strict action against him. He is companies' products

and factories were checked and tested it and after results. He is company was sealed by the Government of India. Then the customer court declared that as per section 420 of IPC on cheating the customer he was Juliet for 7 here and fined 50% of his company to government and refunded every customers money back with an interest of 2.5% P.M ( per month). His reputation and his career was finished and his company too. Jethalal was doing his business with loyalty so all customer get back to him. Hiralal was doing dishonestly with customer so his company was closed. After sometime the jethalal had buoyed the company from Government and within 1 year he had open so many outlets of Gada Mart in the entire country and had become the third richest man in the country within 2 year. Jethalal has also faced loses when Hiralal had launched his own products But he was loyal to his business so career was finished. If Hiralal was loyal to his business he have beer become first richest men in the country but of his greediness he was destroyed.

That's why people says,  
" Honesty is the best policy".

Or

“Truthfulness brings its own Reward”.

Truth is its own reward.

# NECESSITY IS THE MOTHER OF INVENTION

Vagadiya Rishit  
Class 8<sup>th</sup>

Necessity is the mother of invention this statement leads human race from 1.9 million years ago. Home erects to highly skilled and knowledgeable human who fight against covid-19 and it will goes on till human has desired to full fill his needs or necessity.

Not so early but in 14th century Indian / Asian spices become Di hard necessity for a European. They found out the sea route, which leads them to India. Country known as golden sparrow. Gandhiji say that this land can satisfy the needs of man but cannot satisfy the greed of mankind. Europeans were tried to seize India from us. They gave us railway, second largest network of world, postal services, telegram service etc. Revolution is an example of necessity is the mother of invention.

Human race was suffering in the darkness since many years after trying 10000 time Mr. Thomas Alva Edison had invented incandescent light bulb even though he invented the phonograph and the motion picture camera as well as improvised the telegraph and telephone. This telephone network worked spread worldwide in 3 decades. This telephone became our basic needs to communicate with other. It's a fix structure we needed moveable network phone, then we got codeless phone, then we found first new mobile phone from Motorola. It was feature phone time change every second. Time has changed from feature phone to smart touch

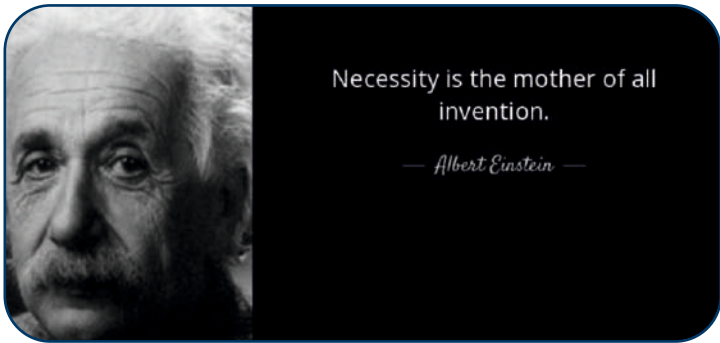

screen phone. That has been invented by Apple corporation named as- iPhone.

Internet was invented by American army by using to join their computer in our common network. Officers understood the power connectivity they had interlink other computer and it became powerful internet of current era.

Once upon a Time in India PPE kit is totally new word for common man. Now they are aware of it and India has started to manufacture it at ground level. Pandemic Covid-19 starts over the world. Indian has started to invent vaccine to prevent common man against corona virus. Nowadays more than 100 crores those has been distributed. During the year 2020 - 2021. India has lost his most valuable schooling system as per said that "Necessity is the mother of invention", schooling has started on mobile phone and TV network.

Whenever human caught in the trouble or in need to Survival it proves that necessity was, and will be the mother of all inventions

# A MAGIC CELL PHONE THAT TURNS INTO A ROBOT

Vaghela Jayveersinh  
Class 4<sup>th</sup>

It was a hot summer day. I was going home from my uncle's house. I saw something shining on the roadside. Out of curiosity I went and saw what it was and I realized it was a mobile phone covered in grass. It was the sunlight which was reflecting from the screen of mobile. I tried switching it on but it did not switch on. So, I took it home and put it on charging.

After a few minutes, the phone started shaking and making weird noises. I panicked and tried to remove it from charging. But before I could remove it from charge, the phone transformed into a tiny robot. I was shocked and did not know how to react. Suddenly the robot began to speak. He said he would not hurt anyone. He was from another planet and separated from his friends. He begged me to let him stay with me until he found his friends. I could not believe I was talking to an alien robot. I accepted his request and let him stay with me.

In return for my help he wanted to help me in any way he could. I also smiled and said that if you want then help clean my room. I was kidding with him but to my surprise he cleaned the whole room in five minutes. I was amazed to see this. I got greedy, I thought I should take more service from this new friend. I told him to bring the biscuits my mother had put in the upper drawer of the kitchen. He went to the kitchen and brought it to me I enjoyed this so much. I gave all my homework to that tiny friend and he finished it in no time. I

was having so much fun with this new friend.

Tiny Robot will help me complete my homework and while helping me will also show me how technologically advanced his world was, he was missing his world and buddies. I assured him that in few days they all will be together. Tiny Robot also helped me understand and learn complicated computer software language.

One evening I came home from school, I found that my friend was not there in the room. After so much searching, I found a paper on the table. He wrote that his companions had come to pick him up. He thanked me for all the help and promised to see me again. From that day till today I have been waiting for him to come back. I will never forget that little friend of mine, and his helpful nature.

**Patel darshan**  
**Class 5<sup>th</sup>**

There should be education, housing, health care for all. There should be better treatment of animals. There should be more openness towards idea. We should end global warming, crime, war, racism, terrorism, pollution, poverty, climate change. Those are all things that many people would change about the world but I want everyone to think bigger. Why are there so many problems in our world today? One word:

If I could change one thing about the world, I will eliminate human greed. Human greed is at the core most of our world' greed is like a newborn seed that grows into a poisonous vine, eventually dominating the human soul like an infectious disease, spreading to every corner of society. Ultimately, blinding us from the truth.

Our greed blinds us from this reality. Global warming exists because of our greed we were greedy and wanted more goods so we built more factories. We saw coal as a cheap and effective energy source therefore our factories. We so coal which creates pollution in turn cause global warming. The same goes for war. Leaders of countries are greedy and want more for their countries from that greedy arises war. Instead of being greedy we should all be more kind and caring towards others. Wait, but is not human nature to be greedy. Yes, we are all greedy and something that might never change but the problem is that we all view being greedy as something normal and good when in fact, greed is anything but good.

Necessity Is The  
Mother of Invention

Barot Malayraj  
Class 8<sup>th</sup>

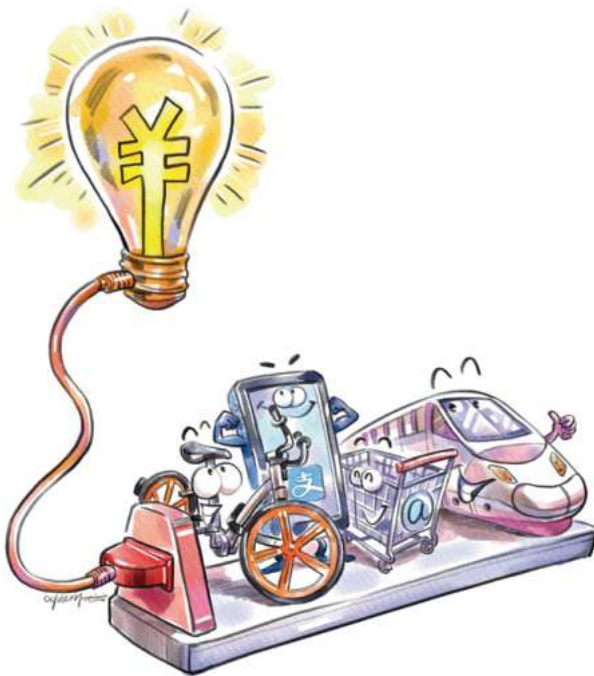

The meaning of the proverb : necessity is the mother of invention is not technical; it simply means that requirement or need for a particular things drives person to create or invent something which satisfies that particular needs.

The major and notable inventions have been the result of critical necessities in a human's life; once the necessity is in a huge gets satisfied people achieve a state of happiness. They will live in harmony and thereby making the world a happy and better place to live in. Even though the original author of the proverb is not known, but the famous coat is in use at most of the place right from the school. This is a very famous proverb, people have been having since years. Necessity means needs and human beings work hard to full fill their needs.

That's the basic meaning of necessity in the mother of invention. Since the civilization started, necessity has kept on driving. Human beings invent innovative and useful things. It simply ignite the passion in a person to work for self-living or invent new things which are beneficial for self and others. Necessity also not invite people to get into action. Human beings struggle hard to achieve something. When your particular need becomes the necessity for survival, people finds a way to achieve the same.

According to history, in the primitive age human being had no clothes to Guard their body against heat and cold, no whom to live in no food for their appetite, etc. This desired the need for prevention and survival compelled them into invent fire, tress back to cover their body etc.

Further they kept on improving and inventing new and better things. The world knows, when edition felt the necessity of light he invented bulb in 1079 and those the entire world got lit up. There are several other inventions such as transport, system, TV's, radio, mobile and many more that not only show the brilliants of the respective owner and inventor, but has also made our lives comfortable and compel in the model world too. # CHANGING ONE THING

**Kacha Jahnavi**  
**Class 5<sup>th</sup>**

Hello everyone! I will talk about the topic which was one of my favorite questions if I could change one thing in the world, what would it be. The world is such a magnificent creation. It is a gift given to us without expecting back but for us to take care of it but we the humans in the course of our civilization have spoil it by polluting all natural resources like air, water bodies & soil.

If I have the power to change one thing in the world I would eliminates the use of plastics. Which has become one of the primary causes of pollution.

The accumulation of plastics products in the environment that adversely affects wildlife habitat and humans. They are slow to degrade. The effect of this pollution is depletion of ground water level increase in global warming changes in our climate, decrease in marine life etc.

Our health and the health of planet would be much better if we stop our use of plastics. Hence if I could change one thing in this world I would place a ban in the use of plastics. Now a day's easily degradable bags that dissolves in water and causes no harm to animals that swallows it accidentally. They are eco-friendly bags are manufacture with corn starch and vegetable waste.

I would join with my friends in creating awareness among people about the evil effect of plastics and I would encourage people to use these eco-friendly bags. Mother earth has carried our ancestors. It has carried us and it will carry our future generation.

So come on friends! Help me change the world making it plastic free and making it better place to live in I thank one and all for giving me this opportunity and helping me express my strong corner on this current boiling issue.

# ROBOT PHONE

Class 4<sup>th</sup>

It was a bright Sunday morning, I just woke up from my sleep and realized it was my birthday! I was so excited. I could not control myself because of the excitement and jumped around everywhere. That's when I overheard a conversation in the kitchen about me getting a phone. I tried to be as discreet as possible but could not. The smell of freshly cooked waffles and pancakes made me drool and go crazy. I was not able to handle it anymore, so I came out hiding, went into kitchen, took waffles and pancakes sat on the table and started gobbling them up. Then my mother pretended to go work but actually, she was going to buy my phone. I kept on thinking what phone it was going to be, whether it was a Samsung, Apple or any other phone but it should not be a keypad phone because then I would just be sad when my mother arrived I saw her holding a cover in which there was a black box.

The box was black with no logo or anything written on it, so I opened it. The phone looked like a normal smart phone, I tried switching it on but it did not switch on. I thought it needed charging, so I took it to my room and put it for charging about ten minutes, the phone switched on, it had an electric symbol on its screen. I thought it was a logo so, I clicked it and when it started making weird noise and started emitting rays from the rear camera and started scanning me after it finished 'scanning' me it all of sudden started transforming into robot but it was not a huge robot. It was the size of the pen. When I tried to lift it, it slapped my hand and jumped on the table. Talk

about a robot with an attitude. It kept on blabbering about who it was and that he would do anything for me for day. It was already evening I had to go to my party. I told him to finish all my homework and clean my room and find all chocolates my parents hide from me and hide it under my bed. The robot started doing my homework, thirty minutes pass by and the robot was still on the first page, considering the pen was as big as him, then he told me that when its midnight he will turn back into a phone. I did not seem to bother and left for my party. By the time I returned home it was already midnight. When I went inside my room, all my books were in a neat pile and when I saw under my bed there was a huge sack of chocolates and my phone on lying on the table.

What a wow gift it was, I put the phone on charged to switch on the magic, but nothing happened, now I put my phone at least 3 to 4 times on charge during the day, and wait for the change to happen, but nothing, but I am waiting...

# SAILING TO THE NO - MEN LAND

Rathod Aryaaba  
Class 7<sup>th</sup>

I wish to share my wonderful experience of journeying to no man's land. I am Alice, I live in complete land cover Rajkot city of Gujarat. Any sea from my city is at least 2 km away and I have always dream of travelling in open ocean with water all around me with cool breeze flowing and million star over my head, only the sweet voice of ocean waves and my thought. I have seen this dream for very long time and have followed on social media by several real life sailors. My interest towards sailing was inspired through my childhood story book of Sindbad the great sailor, I have been to Andaman Nicobar, Goa, Dwarka and have enjoyed the ocean bit prior to my real life sailor experience it was Goa where I met Arvi my sailor buddy. Arvi is very adventures girl whom I met during doing scuba, her father is working as a businessman in import and export business in Kochi, Kerala.

I and Arvi talked and talked and talked for hours and hours and Arvi was surprised to hear that we share the same dream of sailing in Open Ocean to no men's land, our parents were shocked to see how our dreams match. My parents had planned a long vacation in Goa especially for me. I and Arvi convinced our parents to take us both in a separate boat in the open ocean and allows us to spend entire night in the open ocean. Arvi's father made all the arrangements of a boat things we might require for the sailing trip, Arvi's father Mr. Mahesh Babu also explain us that such trip also require some paper work to be done with government authority and the boat also requires modern equipments to be more safe during some

adventures trip.

My parents were not able to accompany me for this trip as it was difficult my very young brother to travel with us due to his age. Arvi's father convinced my parents to let me travel alone as it was very safe trip and the crew of the boat were very experienced and the boat in which we were travelling equipped with modern navigation and other required safety features. Our boat also had all the required communication gadget.

The boat was 8 years old but the crew members and the captain of the boat were very experienced and gentle. Mummy and papa brought to huge bags of snacks and give that to the crew members, i and arvi started laughing by seeing to huge bags. I informed my parents that we were going on a trip for only 2 days and one night. And the snacks that my parents brought were enough for a week of a journey.

The boat was named 'Prabal'. We climbed over the boat, the boat looked very strongly built it had two decks and the captain Mr. Subodh showed us entire boat, engine room was under the Deck and it had to powerful engine, Captain Subodh informed us that boat needs only one engine and the other one is always kept ready under emergency then captain

Subodh took us to the navigation room, it had all required equipment with a walkie talkie a radio transmitter, a reader, and many other electronic devices to help the boat sailing safely. The top deck with the beautiful cabana with relaxing chair fresh fruits and few snacks arranged for us. We jumped with thrill, Mahesh Babu called us to show us our rooms. The boat had four cozy and clean rooms with double bed and cubical bathroom. We requested Mahesh Babu to let us sleep

on top deck and gaze the night sky. I hurriedly said 'bye' to my brother and parents and shouted 'Thank you' to allow me on such memorable trip. It was 10:30 morning of 24th of October 2018 that we started our journey.

Our boat Prabal slowly with the rolling of the engine slowly started leaving the dock. It took us 40 minutes to gain speed and leave going sea and reach in Open Ocean. The sun was shining on our head and the captain announced that good cool coconut water had been served at the bow of the boat. Sudeep was one of the crew member made us comfortable near the bow, special chairs made of safety ring were placed on the bow of the boat and two huge coconut were served to me and my friend. As the boat was travelling at a good speed and open ocean to the bow of the boat was breaking the waves and going up and down. The waves heating the bow and the hull of the boat created drizzle, which was spreading on our face, the cool coconut the warm Sun and ocean water drizzle was wonderful mix of excitement and fear. But we both were living our dream of sailing in open ocean Sudeepbhaiya checked us as to whether we were comfortable and he also informed us that it will be time to experience a good scuba dive in 20 minutes ride and hopefully the place will be all empty for us and full of fishes and corals and if luckily we might see some turtles also. I and Arvi and goose bumps with excitement. Captain halted the boat near a creek like

formation the place was surrounded by small hills and a white sand small hills and area can be seen between Manoj Babu told us to get ready for scuba adventures we got into our scuba gear and with Sudeepbhaiya accompanied us holding our hand started descending Deep into ocean on his waist he had tied a plastic bag with

bread loaf into the water, suddenly from now were flacks of colorful fishes started surrounding us through we were not seen such as seen yet it was mesmerizing Sandeep Bhai mood his hand in front of us there we saw a giant sea turtle swimming by front of us it quickly dived down and started swimming to the corals. We followed the path of sea turtle and reach the corals below the world of fish and underwater life has always fascinated me. We swam back up to the boat and saw two other boat standing near our boat

When we climbed over our boat we were informed that the electric panel of boat had some problem in sharing the direction. The other two boats came by to help. We were advised to have our lunch which was cooked on the boat and looked very colorful. We washed up and rushed to the table on the Deck. As we completed our lunch we were feeling very sleepy and we both went to one of the rooms to rest while we were going Manojbabu informed us that about the electrical problem being rectified we were awake by the loud hour, we were awoken by the loud sound of music. I and Arvi came out of our room and there was party, music and songs being played we were surprised to hear that it was our captain's birthday and the crew members and Manojbabu had planned a wonderful surprise party on the Deck. We all climbed the top deck where the cake was kept ready and captain said it was the best party he had in years. He thanked us all and we cut cake and I and Arvi well left on the the top deck till the time we want to and our dinner was also supposed to be served in the cabana. We completed a very delicious meal due to the moon night the dinner was a candle light arrangement and the cool breeze was adding to the magical height. Arvi decided to go to bed where I decided to remain grazing the stars which wear shining to the Wales. I saw no other words or any light around us but a million sparkling lights of stars over my head. I was seeing my dream come true and my eyes were wide open full stop Sandeep bhैया came to deck if we required anything. He

brought a blanket along and said that he will be awake if we needed anything. I was in 7th standard and I had tears and remembered my parents if they were with me, excited in full with joy the cool breeze made me closed off.

Suddenly jerk woke me up and a very scary voice scared me to death. All dark I was alone and I started crying and cling to the wooden pool of the cabana lightly. Manojbabu came Rushing to the Deck and carried me back to the main deck, he took me to my friend and told us to remain in the room till someone comes to you. There were a lot of scratching noise and the boat shoot tremendously we both hugged each other tightly and were crying of fear. Our room was all dark suddenly and then suddenly a complete silence covered the entire boat. This silence was the scariest thing that I had experienced. I started crying allowed and Manojbabu came hearing my cries and hug to both of us sitting next to us that the boat had hit something very large in the ocean and the electronic equipment had failed working. We were still stopped by that large piece of something

Captain Subodh came in our room and he was shaking and trembling while he informed us that entire night the boat traveled a wrong direction and we have reached south rather than traveling back East towards Goa. The failed equipment did start over but it was faulty enough to have misguided the entire night. Captain Subodh also confesses that it was his fault as he should have double check, but you to birthday celebration he got carried away. Then immediately entered looking very scared Sudeepbhaiya, shocked all in the room when he told us all that water is entering the boat from the engine room. Captain Subodh tall we to remain in the room and immediately told Sudeepbhaiya to get the rescue boat ready for equation

It was all dark and the boat was shaking roughly. Everyone was moving left and right and shaking with the luggage in hand and not knowing which direction to walk I

could feel my feet making splash sound while we walked in the dark. I was quickly pulled by 4 hands Swift over my feet and quickly dropped on a hard floor and felt Arvi also hanging over me. I heard Mahesh Babu tell us both to hold tight as we will be traveling to safety in rescue boat away from our sinking boat 'problem'. The rescue boat shocked badly as other crew members jumped in it

We did not know what time it was but sky far away showed light of dawn now we could see that our boat Prabal had crashed into a larger ship crack, our captain Mr. Subodh was heartbroken and literally in tears. Manojbabu and Sudeepbhैया both were comforting captain and reassuring him that we have survived and God helped us at the right time. Captain wiped his tears and said 'sorry' to us and started surveying all directions in the open ocean. The captain pointed to the open ocean and showed us somewhat straight line of debris floating over the water

Seeing that the crew man quickly picked up the pedals and start roving the boat in the direction of debris floating. I and Arvi scared and confused did not understand what was happening but we kept holding each other's hand tightly and constantly

looking in all directions in search of something paddling for at least few hours as we can see the sunrise, captain pointed to a faraway direction it's seems like something like land formation. Mahesh Babu pointed to the sky and show does seagulls flying and informed us that this bird are informed us that this Bird are commonly seen near coastal areas. I had a wild smile on my face and started remembering my parents and thanking God. Soon we reached to Small Island and the

exhausted crew half way over the sand and fell there itself we all got out of the boat and there in the boat we could see some jugs of water and fruits and boxes with first aid sign on them. The boat was tied to a rock formation securely to that small Island

I and Arvi hugged Mahesh Babu and started crying. Mahesh Babu came and told us that we are all safe in few hours we will have pick up, to divert me and are. Mahesh Babu told us that the island in which we wear on is actually the no man's land, our eyes wider and we started thinking of naming the island instantly. Mahesh Babu started laughing and said to us, to explore the island first. Mahesh Babu told captain that we will just go around the island and come back quickly. It was a very small island with few trees and dead Corel rock for me formation belt with salt crystal white send it took us just half an hour to go around Island. We reach back to where captain

Prabal

and crew were. I was about to as captain how to reach to our Parents, captain Subodh immediately understood and showed me what Sudeepbhaiya was doing I saw Sudeepbhaiya had thick black bag open in front of him. Which had and screen and were pressing some buttons and speaking mayday captain Subodh informed us that Mayday is a distress call that is used to signal a life threatening emergency. One of the crew member give us some fresh fruits and water. Sudeepbhaiya hurriedly call the captain the crew members and Manoj Babu ran towards Sudeepbhaiya captain Subodh wore the headphones and started communicating. Captain jumped and inform us that naval boat will reach us in sometime. I and Arvi hugged each other started thinking of naming the island we thought of many names, but finally we announced to everyone that we wish to name that Island in memories of our beautiful

boat, we named it 'PRABAL' we all lost freshwater and cheered name Prabal three times.

Sudipbhaiya asked captain to fire smoke flare so as the help naval boat locate a captain fire 2 shots of smoke flair in sky, 4 in the open ocean we can see a boat I and Arvi started jumping shouting and weaving to the boat. Manojbabu told us that smoke flare were fire to show our location. Boat approach to the island in which we were, it was Indian coast guard boat. 3 cost guards wear in the boat, captain and Mahesh Babu quickly run towards the coast guard both actually did not know what time is was and how long we were on that Island, but I could feel the fun exactly over my head one of the coast guard came with Manojbabu towards the me and Arvi and shook our hands created us to be the bravest girls he had ever met the coast guard took us to his boat with Manojbabu and he was asking us several questions. We saw the rescue what was tied with the coast guard boat. Captain and crew members were also sitting in rescue boat. I did not rescue that coast guard was asking in several questions so has to relaxes after a while we could saw several votes and a busy boat front of us. The port where we reach was Murdeswar Mahesh Babu showed all documents to the coast guard captain. Captain Subodh came to US and hugged us tightly and told us that he and the few would remain for few more as but he had booked taxi which will take us back to Goa. It took us 5 hours to reach Goa hotel where our parents were. Mummy and papa came running and hugged me and mummy had so many question that she was asking, papa went to Manojbabu and thank him for taking care of me. We all went to the hotel room and we talked and talked and talked till dinner time. I slept that night with a dream come true of sailing to the no men's land.

The next morning I suddenly wake up to the dream where I was in the middle of a jungle.
